Find your supplier or buyer and expand your business!

The Slovak Investment and Trade Development Agency (SARIO) organizes domestic and foreign events to support the export ambitions of Slovak companies and helps international entities to establish trade relations with Slovakia. For nearly 12 years, the Slovak Matchmaking Fair has been one of the largest and most prestigious international B2B events for Slovak and foreign entrepreneurs in Slovakia.

The event offers you:

- new business partners
- individual business negotiations based on a scheduled timetable
- business and investment opportunities
- the ability to engage in the supply chain of a major multinational company
- information on the use of Euro funds for innovation in industry
- networking with representatives of professional associations, institutions, chambers of commerce and the state
- latest information and trends in modern engineering and electro mobility in the form of expert panel discussion
- entry to the International Engineering Fair 2018 and the ELO SYS 2018 Fair

Primary focus of the event are business negotiations (B2B) of business entities offering or seeking business, manufacturing and cooperative partners in engineering and other related industries.

Panel Discussion Automotive Engineering and Mobility of the Future

- requirements of the automotive industry
- automation and robotics
- electromobility, industry and means of transport for the 21st century
- current calls for science, research and innovation funding for Slovak companies
